Work Experience

Backbase

Senior Frontend Engineer

Hyderabad, India

July 2023 - Present

- Led frontend development initiatives within the Backbase Model Bank framework, focusing on the implementation of a retail banking solution for **Mystate, People First Bank**.
- Designed and developed responsive and user-centric interfaces aligned with Backbase UX/UI guidelines.
- Collaborated closely with multidisciplinary teams to integrate frontend functionalities seamlessly with Backbase Model Bank backend services.
- Implemented accessibility standards and best practices to enhance usability and inclusivity in digital banking experiences.

GE Appliances, a Haier company

Hyderabad, India

Developer UI/HTML

April 2021 - June 2023

- Developed and enhanced the eCommerce website for **GE Appliances** using the BigCommerce framework, focusing on creating responsive and engaging user interfaces.
- Customised and optimised multiple GE sub-branded stores within the BigCommerce ecosystem to maintain brand consistency and improve performance.
- Utilised HTML5, CSS3, and JavaScript to build dynamic, interactive web features, enhancing user engagement and boosting conversion rates.

Deloitte

Hyderabad, India

Senior Analyst

April 2020 - March 2021

- Led frontend development for the **Magent Concierge** project, utilizing Angular to create a responsive and user-friendly interface.
- Implemented Microsoft Authentication Library (MSAL) for secure user authentication and authorization, enhancing application security.

Infosys

Hyderabad, India

Senior System Engineer

Dec 2018 - March 2020

- Developed and maintained the frontend for the Charles Schwab **ticket trading** application, ensuring a seamless user experience.
- Wrote comprehensive unit and end-to-end test cases to ensure code reliability and application performance.

Dharani Info Technologies

Guntur, India

UI Developer

April 2016 - Nov 2018

- Developed user interfaces for the **LetterHub** application using AngularJS and Bootstrap.
- Integrated OAuth 2.0 for secure authentication and ASP.NET Web API for backend services.
- Developed reusable AngularJS components to enhance modularity and maintainability across the Letter Hub application.

Education

Bachelor of Technology in Computer Science and Engineering

2010-2014

NRI Institute of Technology, Guntur

Awards

- Received a silver award for developing the Innovation Studio website within the given delivery timeline.
- Received another Silver Award for successfully completing the Available-to-Promise (ATP) project on DTC websites.
